## ! WARNINGS AND CAUTIONS

### WARNING

- When tightening screws, do not overtighten. This may cause threads to strip. We recommend using a hand-powered screwdriver rather than a power screwdriver.
- Do not force screws into holes.

### CAUTION

- For corner installations (optional); if baseboards are installed where the fireplace is intended to be displayed, then the fireplace will not fit flush against the wall. For a proper flush fit, you may need to remove part of the baseboard moulding if necessary.

## PREPARATION

Before beginning assembly of product, make sure all parts are present. Compare parts with package contents list and diagram above. If any part is missing or damaged, do not attempt to assemble the product. Contact customer service for replacement parts.

Estimated Assembly Time: 60 minutes

Tools Required for Assembly: Philips Screwdriver, Flathead Screwdriver, Drill, and Tape Measure
