

Chemical Injector Assembly Repair Instructions

1. Apply a small amount of grease to the ball.
2. Holding the barb hose upside down, drop the ball into the hose barb on top of the small o-ring inside.
3. Apply a small amount of grease to the top of the spring, push the spring down onto the ball.
4. Carefully install the assembly back onto the manifold making sure no parts fall out of the assembly. Carefully tighten hose barb assembly.
