SHOULD YOU REQUIRE ASSISTANCE WITH A PART THAT MAY BE BROKEN OR MISSING OR YOU ARE HAVING DIFFICULTY WITH ASSEMBLY OR STARTING PLEASE CONTACT US. YOUR COMPLETE SATISFACTION IS OUR PRIMARY OBJECTIVE.

QUICK SETUP GUIDE

(Letters A-C)

NOTICE: Use of fuels with greater than 10% ethanol are not approved for use in this product per EPA regulations and will damage the unit and void the warranty.

A

Install the Handle

Place handle onto frame, depress the snap buttons, and slide the handle assembly onto the frame until snap buttons snap into place.

B

Add/Check Oil

The engine is shipped without oil. Before starting engine, add the oil provided. Check oil level prior to each use. Refer to Engine Owner's Manual for complete procedure.

C

Add Gasoline

In a well ventilated outdoor area add fresh, high quality, unleaded gasoline with a pump octane rating of 86 or higher. Do not overfill. Wipe up spilled fuel before starting the engine. Refer to Engine Owner's Manual for complete procedure.

IMPORTANT: Ethanol Shield™ (sold separately) is a fuel stabilizer that helps eliminate and prevent ethanol related problems in power equipment. Follow the instructions on the container and add to the gasoline.

DANGER:

- Never run engine indoors or in enclosed, poorly ventilated areas. Engine exhaust contains carbon monoxide, an odorless and deadly gas.
- Risk of fluid injection and laceration. When using the high-pressure setting, DO NOT allow the high-pressure spray to come in contact with unprotected skin, eyes or with any pets or animals. Serious injury will occur.

QUICK START GUIDE

(Numbers 1-12)

1

Connect Garden Hose to Pump

Thread the garden hose to the pump inlet. See Label #1 on the unit.

2

Connect High Pressure Hose to Pump

Thread the high pressure hose to the pump outlet. See Label #2 on the unit.

3

Connect High Pressure Hose to Spray Gun

Thread the other end of the high pressure hose to the spray gun.

4

Connect Spray Wand to Spray Gun

Thread the spray wand into the end of the spray gun.

5

Connect QC Nozzles to Spray Wand

Pull quick connect coupler back and insert nozzle. Release quick connect coupler and twist nozzle to make sure it is secure in coupler.

6

Turn Water Faucet Completely On

Do not run the unit without water supply connected and turned on. Use Cold Water Only.

7

Release Air from System

Release all air from pump and high pressure hose by depressing trigger until a steady stream of water is present. Approximately 30 seconds.

8

Verify the Fuel Valve is turned to the OPEN Position

The Fuel Valve has been preset by the factory to be in the OPEN position. See label #8 on unit.

9

Verify the Engine Switch is turned to the ON Position

See label #9 on unit.

10

Verify the Choke Pin is Pulled Out to the CLOSED Position

The Choke Pin has been preset by the factory to be in the CLOSED Position. See label #10 on unit.

11

Pull the Recoil Starter Grip

Pull the recoil starter grip to start the engine. See label #11 on unit.

12

Push the Choke Pin to the OPEN Position

Gradually move the Choke Pin to the OPEN Position after engine starts. See label #12 on unit.

WARNING: This Guide is not a substitute for reading the instruction manual. User must read and understand operator's manual before using this product.
