

## STARFIRE GL450/GL450E

| Description                                      | Part #    |
|--------------------------------------------------|-----------|
| Screen Assembly Kit                              | 90463     |
| Contains:                                        |           |
| Push nuts, screws rods and screens               |           |
| Conversion kit to propane millivolt              | 01473     |
| Conversion kit to propane electronic             | 01474     |
| Frame / hardware kit                             | 01197     |
| Door handles(pair)                               | 90246     |
| Access door                                      | 20349     |
| Limit switch                                     | 14116     |
| Log set - round                                  | 14259     |
| Replacement glass door pane                      | 17121     |
| <br>Burner assembly complete - millivolt natural | <br>20350 |
| Contains:                                        |           |
| Thermopile                                       | 14125     |
| Gas valve                                        | 14201     |
| Gas line flex                                    | 14253     |
| Pilot assembly                                   | 20382     |
| Gas pilot                                        | 14202     |
| Gas burner                                       | 14274     |
| Gas orifice                                      |           |
| <br>Burner assembly complete - millivolt propane | <br>20350 |
| <b><u>MUST SPECIFY PROPANE</u></b>               |           |
| Contains:                                        |           |
| Thermopile                                       | 14125     |
| Gas valve - must specify propane                 | 14201     |
| Gas line flex                                    | 14253     |
| Pilot assembly - must specify propane            | 20382     |
| Gas pilot - must specify propane                 | 14202     |
| Burner tube                                      | 17274     |
| Gas orifice                                      | 23107     |

|                                               |       |
|-----------------------------------------------|-------|
| Burner assembly complete - electronic natural | 20394 |
| Contains:                                     |       |
| Transformer                                   | 14119 |
| Gas valve                                     | 14208 |
| Ignition control                              | 14301 |
| Gas pilot                                     | 14269 |
| Gas burner                                    | 14274 |
| Gas orifice                                   | 23097 |
| Pilot assembly                                | 20400 |

|                                               |       |
|-----------------------------------------------|-------|
| Burner assembly complete - electronic propane | 20394 |
|-----------------------------------------------|-------|

**MUST SPECIFY PROPANE**

|                                       |       |
